

Basavaraja Hiruru

Web Developer

Professional Summary

Front-End Technical Lead with 7+ years of experience building scalable, high-performance web applications using Angular, JavaScript, TypeScript, HTML5, CSS3, and Node.js. Skilled in frontend architecture, performance optimization, mentoring developers, and collaborating with cross-functional teams to deliver enterprise-grade solutions.

Work History

HCL Tech - Lead Engineer- Web Development

Bangalore

07/2022 - Current

- Spearheaded the development and enhancement of enterprise-scale workforce management applications using Angular, TypeScript, HTML5, CSS3, and REST APIs, delivering scalable and user-centric solutions.
- Led frontend development by mentoring junior developers, conducting code reviews, resolving technical challenges, and ensuring adherence to coding standards and best practices.
- Designed and implemented reusable Angular components, services, and Reactive Forms, improving code maintainability and accelerating feature development.
- Successfully migrated legacy AngularJS applications to modern Angular, enhancing application performance, scalability, and long-term maintainability.
- Developed and integrated secure RESTful APIs, implementing JWT-based authentication and authorization to ensure secure application access.
- Optimized application performance through lazy loading, code splitting, RxJS optimization, and memory management, resulting in faster load times and improved user experience.
- Collaborated with cross-functional teams in an Agile Scrum environment to deliver high-quality features, participate in sprint planning, production deployments, and provide timely production support.

Wunderman Thompson Commerce - Associate System Analyst- Web Development

Noida

04/2021 - 07/2022

- Contributed to the design, development, and maintenance of an enterprise e-commerce web application using Angular, JavaScript, HTML5, CSS3, and Bootstrap.
- Developed and implemented new features, reusable UI components, and responsive web pages to enhance the overall user experience.
- Designed and implemented UI components such as breadcrumb navigation, product pages, and promotional campaign modules for seasonal events like New Year and Christmas.

🔗 [Portfolio](#)

Core Expertise

- Angular (12+), TypeScript, JavaScript (ES6+)
- HTML5, CSS3, SCSS, Tailwind CSS
- RxJS, NgRx
- Vue.js

Working Knowledge

- Node.js, Express.js
- REST API Development & Integration
- MongoDB, SQL Server
- AWS (EC2)
- Nginx, Vercel, Render
- Cloudflare, DNS Management

Version Control & Collaboration

- Git, GitHub, Jira, Figma

Development Tools

- VS Code, Angular CLI
- Postman, Chrome DevTools

AI Development Tools

- ChatGPT, Claude
- Cursor, GitHub Copilot

- Collaborated with UI/UX designers and backend developers to integrate RESTful APIs and deliver user-friendly, responsive interfaces.
- Performed debugging, testing, and defect resolution during development and deployment, ensuring high application quality and smooth production releases.
- Ensured clean, valid HTML and CSS markup in compliance with industry standards.
- Optimized website performance by refactoring code, improving page load times, and following HTML, CSS, and JavaScript best practices.

Spider Focus Solutions - Software Engineer

Bangalore

10/2018 - 04/2021

- Developed and maintained responsive web applications using HTML5, CSS3, JavaScript, and Vue.js, ensuring cross-browser compatibility and optimal user experience.
- Designed and implemented reusable UI layouts, templates, and web pages based on business and design requirements.
- Maintained and enhanced HTML/CSS templates by implementing UI improvements, bug fixes, and performance optimizations.
- Collaborated with designers, backend developers, and QA teams to develop, test, and deploy new features following Agile methodologies.
- Developed user interfaces for request creation and monitoring modules, ensuring responsive and intuitive application workflows.
- Participated in daily Scrum meetings, resolved UI issues, and provided technical support during development and deployment activities.
- Delivered user training and documentation for the Content Management System (CMS), enabling business users to manage website content independently.

Accenture - Associate Application Developer

Pune

05/2018 - 07/2018

- Successfully completed comprehensive induction and technical training covering Software Development Life Cycle (SDLC), SQL, HTML5, CSS3, JavaScript, Git, and Agile Scrum methodologies.
- Gained practical knowledge of software engineering principles, coding standards, debugging techniques, and version control through hands-on exercises and internal assignments.
- Participated in instructor-led technical sessions and collaborative learning activities to strengthen problem-solving and software development fundamentals.
- Assisted senior developers in understanding project workflows, application architecture, and frontend development practices.
- Participated in Agile ceremonies, including daily stand-ups and team discussions, to understand the software development process and collaborative development practices.
- Continuously enhanced technical skills through self-learning, internal training programs, and technical workshops.

Accomplishments

- Completed Node.JS Backend Development course with hands-on projects.
- Participated in Science and Technology Conversation by Bhabha Atomic Research Centre.
- Attended workshop on IOT by i3indya technologies.
- Attended in SKILL INIDA program as a career guide.
- Secured first position in Quiz contest conducted by Eco-club.
- Worked as volunteer to Youth for seva.

Education

07/2015 - 05/2018

SJCE (Sri Jayachamarajendra College of Engineering)

Mysore, India

BE

Languages

- Kannada
- English
- Hindi
- Telugu

Interests

- Chess
- Trekking
- Bike riding
